Coding Challenges Details: (Attach the snapshot and briefly write the report for the same)

1. Certification Course Details

2) Coding Challenges:

1. Check where the number is positive or negative

Pgrm1:

```
number = int(input("Enter number: "))

# checking the number
if number < 0: print("The entered number is negative.")
elif number > 0:
    print("The entered number is positive.")
elif number == 0:
    print("Number is zero.")
else:
    print("The input is not a number")
```
